

Austin-Bergstrom International Airport New Delta Sky Club

AUSTIN, TX

New Delta Sky Club at Austin-Bergstrom International Airport

CLIENT City of Austin Public Works

GC Holder Construction

DURATION 6 Months

SIZE 9,000 SF

Rosendin provided all electrical and communication pathways work for the new Delta Sky Club at Austin-Bergstrom International Airport. The Delta Sky Club includes a covered patio, high-speed Wi-Fi and power outlets, local beer and art offerings, plus a full-service bar allowing passengers to travel in style. Located on the mezzanine level of the Barbara Jordan Terminal, the lounge is a unique circular shape that features indoor/outdoor seating, food service/bar, dramatic lighting features, and numerous seating areas with access to power outlets and Wi-Fi.
