

Moscone Convention Center

SAN FRANCISCO, CA

Renovation of existing Moscone Convention Center

With more than 992,000 square feet of meeting and exhibit space, including 107 meeting rooms, three ballrooms and over 151,000 square feet of pre-function lobbies – the Moscone Center renovation was completed in 2018. The complex interfaces and multi-use rooms are a perfect example of Rosendin's ability to carry out a multi-phase renovation.
